

INTERVET WB Job Shadowing in SEPR Lyon November 2021 Draft programme

What?

Capacity building: Job Shadowing

When?

15th – 19th November 2021 (5 days + 2 travel days)

Where?

SEPR Vocational Center, Lyon, France

Why?

To observe examples of best practices on teaching methodologies, work-based learning and to create a dialogue with the colleges from the Western Balkan to explain, discuss and show our daily work environment.

Who?

VET teachers and managers from the Western Balkans, 18 participants in all.

How?

With its long tradition of vocational education and training, SEPR today distinguishes itself by the large diversity of training fields, with 6 excellence sectors and 3 training paths namely full-time training, dual system apprenticeship and continuous education. Each year the school trains more than 4,000 learners from EQF 3 to EQF 6. For more information on the SEPR click [here](#) or [here](#)

The SEPR is an ideal place to live a job shadowing that will permit to combine the experience of participating in lectures, practical courses, meeting the teaching and non-teaching staff and discussing with the managers in charge of the different sectors. We shall therefore, include in the programme job shadowing in workshops such as automobile, cabinet-making, fashion design, pastry-making and health and care where the participants will be able to exchange with the teachers and learners. We also propose to meet the team of the office in charge of Education, Engagement and Citizenship and the department in charge of Disability support. It would also be very interesting to meet with the SEPR Incubator team that accompanies learners on paths to professional integration through company creation.

We will propose field trips to our partner- companies where our learners are doing their apprenticeships on-the-job.

Last but not the least, the job shadowing programme would not be complete without a cultural visit or a stroll in the Vieux Lyon.
